ANALYSIS OF NAIL CONDITION

First, use the NailSpa Manicure Analyzer to determine your nail type and analyse the condition of your nails.

On this Manicure disc, check your individual nail condition (for each nail criterion).

If most of your check marks are within the yellow range, you have normal to strong nails.

If you have put most of your marks in the pink range, this means your nails are currently brittle and likely to split easily.

If most of your marks are in the blue range, you have very delicate, thin and soft nails.

On the following pages, select the appropriate products from the NailSpa care system for your individual nail type.

THE 6 STEPS OF A PROFESSIONAL MANICURE

Six easy steps to perfectly manicured nails with NailSpa

1. **First**, clean your nails thoroughly, removing nail polish as well as any other residues
2. **Trim** and shape your nails, using the file that best suits your nail type
3. **Smoothe** your nails
4. **Nourish** your nails, nail beds and cuticles if they require special care, and enjoy the fragrances
5. **Care** for your cuticles on a daily basis
6. **Protect** your nails against daily stress and harmful external influences

Your personal cosmetics counsellor at selected drugstores, cosmetics institutes and department stores will be glad to assist you.

NAILSPA MANICURE

ALL NAIL TYPES

1. CLEANSING

① NAIL POLISH REMOVER

ACETONE-FREE

Removes nail polish quickly and gently while caring for the nails. Vitamin E promotes blood circulation and reduces dehydration of the nail.

② SMOOTH CUTICLE REMOVER GEL

Removes excessive cuticle growth gently and carefully, makes the cuticles soft and supple.

③ SUGAR ALMOND NAIL PEELING NAIL SCRUB

Ultrafine almond sugar crystals clean the nails and remove excessive cuticle growth.

④ HONEY NAIL BATH NAIL CARE BATH

The 10-minute aroma bath pampers your nails with nourishing substances, cleanses the nails and smoothes the cuticles.

⑤ NAIL POLISH CORRECTING PEN

For easy correction of nail polish mishaps.

PROFESSIONAL TIP

The right way to remove nail polish

Apply a soaked cotton wool pad to the nail and let soak in briefly. Pull the pad in the direction of the nail tip, applying gentle pressure, to remove the polish completely.

A perfect smile line

Perfect for precisely painting the white line in a French Manicure. Apply whitener to the tip of the nail and go over the bottom line with the Correcting Pen.

2. SHAPING

⑥ MINERAL NAIL SEALER

MINERAL NAIL FILE WITH SILICON

Fine mineral crystals seal the nail tips and prevent splitting of the nails.

⑦ PROFESSIONAL MANICURE FILE

Professional quality file for quick and gentle trimming and shaping of fingernails.

PROFESSIONAL TIP

Yellowed nails

Colour nail polish and cleansing agents may cause yellow discoloration of the nail surface. For quick and easy removal of such spots, use the three basic files in the Polishing File Set. Your nails will look nicer; they absorb nourishing substances even better, and your nail polish will last longer.

3. SMOOTHING

⑧ ANTI-AGING RIDGE FILLER

The ideal base coat for natural nails with ridges and grooves – smoothes the nail surface and fills in irregularities.

Precious anti-aging substances (white tea) protect the nail against dehydration.

⑨ NAIL BUFFER SET

SET OF POLISHING FILES FOR SHINY NAILS

Exclusive set of polishing files for use at home or „on the go“. Includes three basic files for cleaning, smoothing and polishing.

⑩ QUICK SHINE POLISH FILE

TWO-IN-ONE POLISHING FILE FOR SHINY NAILS

For quick and easy smoothing and polishing of nails.

4. NOURISHING

11 NAIL TREATMENT KIT NAIL SPA SET

Intensive therapy for nails and cuticles. In combination with the highly effective nail care concentrate, the innovative Nail Tapes guarantee a maximum supply of regenerating and nourishing substances.

5. TREATING

12 CUTICARE NOURISHING PEN CUTICLE CARE PEN

Protection and care for perfectly groomed cuticles. Aloe vera has a moisturising and soothing effect on the skin.

PROFESSIONAL TIP

Stops yellowing

Light-coloured nail polish may become discoloured when exposed to UV radiation. This yellowing is prevented by applying Rapid Dry Top Coat on top of the coloured nail polish.

13 MANGO NAIL SERUM NAIL CARE SERUM

Intensive nail care concentrate of nourishing substances with skin-refining lotus extract – prevents cracking of cuticles and makes the nails supple and resilient.

14 COCO MANGO NAIL BUTTER INTENSIVE NAIL CARE CREAM

Rich care for stressed nails and cuticles with shea butter and green tea.

6. PROTECTING

15 NOURISHING BASE COAT

Nourishing base coat with okumé extract. Prevents discoloration and smoothes the nail surface.

16 RAPID DRY TOP COAT

Quick-drying, UV-absorbing top coating with multiple protection: prevents chipping of nail polish and stops the yellowing of coloured polish.

CLEANSING

① NAIL POLISH REMOVER

ACETONE-FREE

Removes nail polish quickly and gently while caring for the nails. Lecithin restores the lipid balance and retains natural moisture.

SHAPING

② PROFESSIONAL MANICURE FILE

Professional quality file for quick and gentle trimming and shaping of fingernails.

PROFESSIONAL TIP

Shaping the nails

Use the Manicure File to shape your nails as desired. For a finishing touch, seal the nail tips with the Mineral File, always filing in the same direction (4-5 times).

③ MINERAL NAIL SEALER

MINERAL NAIL FILE WITH SILICON

Fine mineral crystals seal the nail tips and prevent splitting of the nails.

SMOOTHING

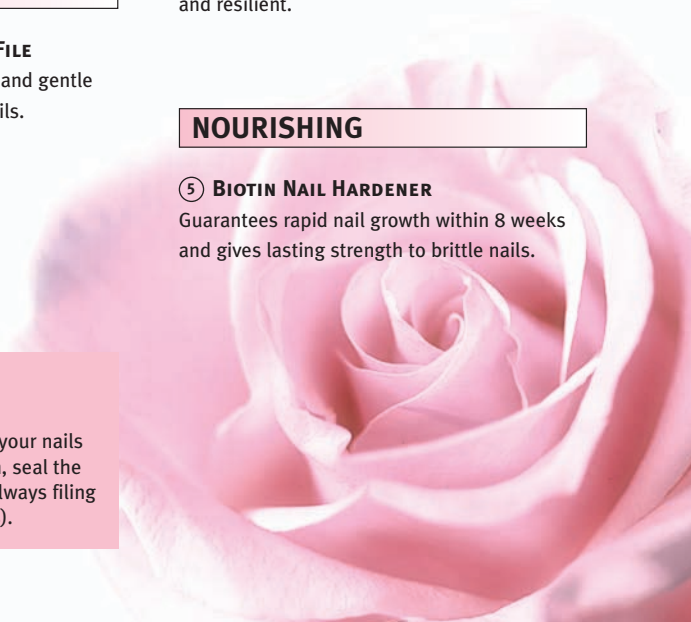

④ NAIL GROW CREAM

Moisturising active cream for brittle, splitting nails – makes the fingernails elastic and resilient.

NOURISHING

⑤ BIOTIN NAIL HARDENER

Guarantees rapid nail growth within 8 weeks and gives lasting strength to brittle nails.
